Read PDF Alice Cooper Golf Monster

shock-rock, heavy-metal bad boy. With golf, as in music, he was way ahead of the cultural curve, his passion for the game predating golf's popularity surge among younger folks, hip professional athletes, and indeed Alice's music contemporaries, including Bob Dylan, Neil Young, Iggy Pop and Roger Waters.

The provocative rock star describes his love affair with golf, reflecting on how he discovered the game, how it helped him overcome a self-destructive downward spiral into alcoholism, and how he evolved from hacker to scratch golfer to serious Pro Am competitor. Reprint. 30,000 first printing.

The man who invented shock rock tells the amazing and, yeah, shocking story of how he slayed his thirsty demons—with a golf club. It started one day when Cooper was watching a Star Trek rerun between concerts, bored and drunk on a quart-of-whiskey-a-day habit; a friend dragged the rocker out of his room and suggested a round of golf. Cooper has been a self-confessed golf addict ever since. Today he and his band still tour the world, playing some one hundred gigs a year . . . and three hundred days out of that year, Cooper is on the course. Alice Cooper, *Golf Monster* is Cooper's tell-all memoir; in it he talks candidly about his entire life and career, as well as his struggles with alcohol, how he fell in love with the game of golf, how he dried out at a sanitarium back in the late '70s, and how he put the last nails in his addiction's coffin by getting up daily at 7 a.m. to play 36 holes. Alice has hilarious, touching, and sometimes surprising stories about so many of his friends: Led Zeppelin and the Doors, George Burns and Groucho Marx, golf legends like John Daly and Tiger Woods . . . everyone is here from Dalí to Elvis to Arnold Palmer. This is the story of Cooper's life, and also a story about golf. He rose from hacker to scratch golfer to serious Pro Am competitor and on to his status today as one of the best celebrity golfers around—all while rising through the rock 'n' roll ranks releasing platinum albums and selling out arenas with his legendary act.

The man who invented shock rock tells how he slayed his demons—with a golf club. One day between concerts, when Cooper was bored and drunk on a quart-of-whiskey-a-day habit, a friend dragged the rocker out of his room and suggested a round of golf. Coope

Alice Cooper: *Golf Monster* is the full account of how Cooper became one of the biggest rock stars on the planet with hits like "School's Out" and "Elected", nearly lost it all to alcoholism, and then turned things around by finding a healthy obsession (golf) to replace his unhealthy addiction to alcohol. While most will be familiar with his wild, mascaraed visage and vaudevillian on-stage theatrics, perhaps few will have been aware of the double life Alice Cooper leads. He

still tours the world with his band, playing a hundred gigs a year; snake coiled round his neck, beheaded by guillotine at the end of every show... but three hundred days out of that year, Cooper is on the course. Alice Cooper: Golf Monster is an unlikely and captivating tale of wretched excess, life-saving redemption, ghoulish make-up, power chords, and five-irons to the centre of the green. Both humorous and candid, this book reveals another dimension to a man who has epitomised rock 'n' roll for the last forty years.

When Alice Cooper became the stuff of legend in the early '70s, their shows were monuments of fun and invention. Riding on a string of hits like "I'm 18" and "School's Out," they became America's highest-grossing act, producing four platinum albums and hitting number one on the U.S. and U.K. charts with Billion Dollar Babies in 1973. As teenagers in Phoenix, Dennis Dunaway and lead singer Vince Furnier, who would later change his name to Alice Cooper, formed a hard-knuckles band that played prisons, cowboy bars and teen clubs. Their journey took them from Hollywood to the ferocious Detroit music scene. From struggling for recognition to topping the charts, the Alice Cooper group was entertaining, outrageous, and one-of-a-kind. Dennis Dunaway, the bassist and co-songwriter for the band, tells a story just as over-the-top crazy as their (in)famous shows. Snakes! Guillotines! Electric Chairs! is the riveting account of the band's creation in the '60s, strange glory in the '70s, and the legendary characters they met along the way.

Written by Alice Cooper's guitarist and keyboard player, this is an anthology of the band that encapsulated the decadent spirit of the 1970s. Following the group on their journey from Arizona garage band to eventual rise to stardom, it reveals the truth behind the drinking and the rock 'n' roll. This "true life" story includes the hangings, the executions, the ghoulish makeup, the egos and of course, the rock 'n' roll. Revised and updated it includes previously unseen photographs and memorabilia. --This text refers to an out of print or unavailable edition of this title.

Alice Cooper is hotter than ever, still playing up to 100 gigs a year with his band, watching his audiences grow younger. But 300 days a year, he is out on the golf course. That's because Alice credits golf as helping him overcome a self-destructive spiral into alcoholism. It's also because Alice turned out to be almost as good a golfer as he is a rocker. This book blends a rocker's uproarious tales of excess with a no holds-barred account of how Cooper substituted alcohol addiction with the lesser evil of hitting a little white ball. Alice Cooper is rock'n'roll's original misanthrope, the ultimate shock-rock, heavy-metal bad boy. With golf, as in music, he was way ahead of the cultural curve, his passion for the game predating golf's popularity surge among younger folks, hip professional athletes, and indeed Alice's music contemporaries, including Bob Dylan, Neil Young, Iggy Pop and Roger Waters. The

nearest Alice Cooper has come to writing his autobiography. He is still a major rock touring artist. This title includes the story of his musical career and of his rehabilitation. It is a fascinating self-help programme by an unlikely role model. It is the first and best of the rock'n'roll golfers.

Formed in Ann Arbor, Michigan, in 1967, the Stooges are icons of modern rock, influencing the fledgling sounds of punk, heavy metal, and hard core. From the beginning, lead singer and provocateur Iggy Pop (b. James Osterberg) astounded audiences with his outrageous stage performances, accompanied by guitarist Ron Asheton, his drummer brother Scott Asheton, and bassist Dave Alexander with their raw and bracing sound. The group disbanded in 1974, but reunited in 2003 to play before a vastly expanded fan base of over 10 million devotees worldwide, and they continue to tour today. In this book, rock photographer Robert Matheu compiles the first ever authorized book about the band, including iconic photographs, classic interviews, and vintage articles and ephemera dating from the band's breakout performances in Detroit in the late 1960s through their most recent shows in 2009. With new interviews from every significant member of the Stooges, past and present, previously unpublished photography, and a Stooges discography, *The Stooges* is the definitive book about this trailblazing band.

A colorful portrait of the charismatic and idiosyncratic leader of Guns n' Roses follows the turbulent life and career of Axl Rose, from his youth and the beginnings of the rock band, to their rise to success, to the substance abuse and infighting that led to his split from the other original band members. 50,000 first printing.
