The #1 New York Times bestseller From Vice President Kamala Harris, one of America's most inspiring political leaders, a book about the core truths that unite us, and the long struggle to discern what those truths are and how best to act upon them, in her own life and across the life of our country "A life story that genuinely entrances." —Los Angeles Times Vice President Kamala Harris's commitment to speaking truth is informed by her upbringing. The daughter of immigrants, she was raised in an Oakland, California community that cared deeply about social justice; her parents--an esteemed economist from Jamaica and an admired cancer researcher from India--met as activists in the civil rights movement when they were graduate students at Berkeley. Growing up, Harris herself never hid her passion for justice, and when she became a prosecutor out of law school, a deputy district attorney, she quickly established herself as one of the most innovative change agents in American law enforcement. She progressed rapidly to become the elected District Attorney for San Francisco, and then the chief law enforcement officer of the state of California as a whole. Known for bringing a voice to the voiceless, she took on the big banks during the foreclosure crisis, winning a historic settlement for California's working families. Her hallmarks were applying a holistic, data-driven approach to many of California's thorniest issues, always eschewing stale "tough on crime" rhetoric as presenting a series of false choices. Neither "tough" nor "soft" but smart on crime became her mantra. Being smart means learning the truths that can make us better as a community, and supporting those truths with all our might. That has been the pole star that guided Harris to a transformational career as the top law enforcement official in California, and it is guiding her now as a transformational United States Senator, grappling with an array of complex issues that affect her state, our country, and the world, from health care and the new economy to immigration, national security, the opioid crisis, and accelerating inequality. By reckoning with the big challenges we face together, drawing on the hard-won wisdom and insight from her own career and the work of those who have most inspired her, Kamala Harris offers in THE TRUTHS WE HOLD a master class in problem solving, in crisis management, and leadership in challenging times. Through the arc of her own life, on into the great work of our day, she communicates a vision of shared struggle, shared purpose, and shared values. In a book rich in many home truths, not least is that a relatively small number of people work very hard to convince a great many of us that we have less in common than we actually do, but it falls to us to look past them and get on with the good work of living our common truth. When we do, our shared effort will continue to sustain us and this great nation, now and in the years to come.

#1 NEW YORK TIMES BESTSELLER • "A great American success story . . . an endearing and well-written book. " —The New York Times Book Review Colin Powell is the embodiment of the American dream. He was born in Harlem to immigrant parents from Jamaica. He knew the rough life of the streets. He overcame a barely average start at school. Then he joined the Army. The rest is history—Vietnam, the Pentagon, Panama, Desert Storm—but a history that until now has been known only on the surface. Here, for the first time, Colin Powell himself tells us how it happened, in a memoir distinguished by a heartfelt love of country and family, warm good humor, and a soldier's directness. My American Journey is the powerful story of a life well lived and well told. It is also a view from the mountaintop of the political landscape of America. At a time when Americans feel disenchanted with their leaders, General Powell's passionate views on family, personal responsibility, and, in his own words, "the greatness of America and the opportunities it offers" inspire hope and present a blueprint for the future. An utterly absorbing account, it is history with a vision.

A beautifully repackaged 50th anniversary edition of Sonia Levitin's powerful classic story about a young Jewish girl forced to flee her home, winner of the National Jewish Book Award. In 1938, Lisa Platt and her family know something dangerous is happening in Germany. Lately, there have been more and more restrictions for Jews: yellow stars they have to wear, schools they cannot attend, things they are forbidden to do. When their neighbors are arrested for petty reasons, the Platts realize they have to escape. Forbidden to bring money or possessions out of the country, Lisa's father secretly leaves for America, planning to work until he can send for them. But when conditions in Germany worsen, Lisa, her mother, and her sisters flee to Switzerland to wait, surviving on what little they have in a continent hurtling toward war. Inspired by Sonia Levitin's own experience of fleeing Germany as a child, this moving novel chronicles one family's bravery in the face of aggression and apathy.

A marvel of accessibility and erudition, the guide also features a history of the making of the Constitution with excerpts from The Federalist Papers and a look at crucial Supreme Court cases that reminds us that the meaning of many of the specific provisions of the Constitution has changed over time. "Excellent . . . valuable and judicious." -Jill Lepore, The New Yorker

From New York Times bestselling biographer Bob Spitz, a rich biography of an epic American life, capturing what made Ronald Reagan so beloved and so transformational. More than five years in the making, based on hundreds of interviews and access to previously unavailable documents, and infused with irresistible storytelling charm, Bob Spitz's Reagan stands fair to be the first truly post-partisan biography of our fortieth president, and thus a balm for our own bitterly divided times. It is the quintessential American triumph, brought to life with cinematic vividness: A young man is born into poverty and raised in a series of flyspeck towns in the Midwest by a pious mother and a largely absent father. Severely nearsighted, the boy lives in his own world and finds his first brush with popularity as a young lifeguard. Thanks to the example of his first love, he makes the extraordinary leap to go to college, a modest school by national standards, but an audacious presumption in the context of his family's station. From there, the path is only dimly lit, but it leads him to a solid career as a radio sportscaster, and then, astonishingly, fatefully, to Hollywood. And the rest, as they say, is history. Bob Spitz's Reagan is a richly detailed chronicle of the full arc of Ronald Reagan's epic life--giving full weight to the Hollywood years, his transition to politics and his rocky but ultimately successful run as California governor. His iconic presidency, from Iran-Contra to "Tear down this wall!" to an assassination attempt, receives a balanced reckoning in the form of an absorbing, even revelatory narrative.

Che Guevara, revolutionary guerrilla, became an international icon for generations of radicals. Three years before his fateful meeting with Fidel Castro, he set out on his motorcycle on an eight-month voyage of discovery around Latin America. This title presents his diaries of that time.
