~~Applied business statistics For Sale in Kingston Upon~~...

Statistics is the discipline that concerns the collection, organization, analysis, interpretation and presentation of data. In applying statistics to a scientific, industrial, or social problem, it is conventional to begin with a statistical population or a statistical model to be studied.

~~Statistics—Wikipedia~~

Students are given the opportunity to familiarise themselves with Microsoft Excel's statistical capabilities by applying them to data sets of business problems, which are available on the accompanying CD. • Students can monitor their learning with the help of the exercises at the end of every chapter.

~~Juta | Applied Business Statistics 5th (Print)~~

Business statistics is very often 'common sense' translated into statistical terminology and formulae so that these can be replicated and applied consistently in similar situations elsewhere. A course in Statistics for management students serves to demonstrate this link between the discipline and 'common sense'.

~~Applied Business Statistics: Methods and Excel-based~~...

Statistics are applied to business using both descriptive and inferential methods. Descriptive statistics are used to describe a full set of numbers and summarize data.
