How does class get 'cast' and made performative? What modes are there for people to wrestle-back their forms of representation? And how should we understand this intense manipulation of feeling? This book examines why class politics matter against much political and academic rhetoric which refract inequality through other means.

Changes in chivalric institutions, ideas and ideals between the fifteenth and seventeenth centuries, and studies of Renaissance attitudes towards such chivalric matters.

The aim of this book is both to illustrate and to discuss some of the main varieties of cultural history which have emerged since the questioning of what might be called its "classic" form, exemplified in the work of Jacob Burckhardt and Johan

Huizinga. Among the themes of individual chapters are the history of popular culture, the history of Carnival, the history of mentalities, the history of gestures, the history of jokes, and even the history of dreams. The emphasis of both the introduction and the case-studies which follow is on the variety of forms taken by cultural history today. The classic model has not been replaced by any new orthodoxy, despite the importance of approaches inspired by social and cultural anthropology. Variety is to be found in the cultures studied as well as among their historians. The case-studies included in the volume come not only from Europe (and in particular from Italy) but also from the New World, especially Brazil. Particular emphasis is placed on the importance of cultural encounters, cultural conflicts, and their consequences,

whether these consequences should be described in terms of mixing, syncretism or synthesis. Written by one of the leading cultural historians in Europe today, this book will be of particular interest to students of early modern Europe, of the encounters between European culture and the New World, and to students and scholars interested in problems of historiography.

The Civilization of the Renaissance in Italy (1860) is a work of art history by Swiss historian Jacob Burckhardt. Recognized today as the founder of modern art history and as one of the key thinkers of the nineteenth century, Burckhardt changed not only the way we think about the Renaissance in relation to European and world history, but the value placed on art as a tool for understanding historical developments. The Civilization of the Renaissance in Italy begins with a section on the historical events which sparked the Renaissance, focusing especially on the frequent military conflicts which marred the era as well as on the constant political upheavals undergone by such Italian regions and cities as Rome, Venice, and Florence. Burckhardt then moves to a philosophical discussion of the development of

individuality in Italian culture, arguing that the political circumstances of those living in the Republics enabled such thinkers as Dante and Petrarch to create art that corresponded with that newfound sense of individuality. The third section discusses one of the key elements of Renaissance culture: the revival of interest in the cultural products of the ancient world, especially Greece and Rome. Part four focuses on the prominence of discovery in Renaissance culture, for which Burckhardt looks to the colonial expedition of Columbus, the growth of the natural sciences, and the achievements of such poets and writers as Dante, Petrarch, and Boccaccio in discovering new ways to describe humanity and the human spirit. In the fifth section, the importance of societal customs and festivals is discussed,

and in the sixth and final part, Burckhardt observes the profound shifts undergone by religion and morality in Italy at the time. The Civilization of the Renaissance in Italy is a thorough, dynamic work of art history that not only changed the study of history at universities around the world, but elevated the status of art in understanding the process of cultural change. With a beautifully designed cover and professionally typeset manuscript, this edition of Jacob Burckhardt ' s The Civilization of the Renaissance in Italy is a classic of European art history reimagined for modern readers.
