In *Cat Sense*, renowned anthrozoologist John Bradshaw takes us further into the mind of the domestic cat than ever before, using cutting-edge scientific research to dispel the myths and explain the true nature of our feline friends. Tracing the cat's evolution from lone predator to domesticated companion, Bradshaw shows that although cats and humans have been living together for at least eight thousand years, cats remain independent, predatory, and wary of contact with their own kind ...

Cat Sense: How the New Feline Science Can Make You a ...

The discussion of what cats feel for humans, and the analysis of purring, will warm the hearts of cat owners.

The book closes with a look at the different pressures cats are under in today's world. The evolution of cats, the author argues, is moving away, rather than toward, better integration with human society.
