"It is, I believe, the lack of a basic technique, scientifically and athletically sound, which accounts for the confusion and uncertainty that exist even at the highest level of this, the most difficult of all games." - Mindy Blake A bestseller all over the world on its first publication, it is now available for a new generation of golfers to learn from. Challenging conventional ideas about golf, Mindy Blake's love of the game shines through as he offers a deeper understanding of what golf is about and how that can be used to improve any golfer's game. golf from the point of view of athletics. Mindy Blake believed that "golf is purely a matter of technique" and was the first golf instructor to look at improving a golfer's technique by studying what they could learn from other sports (as well as understanding the science behind such sporting techniques). Looking at developments in events such as shot putting and pole vaulting Mindy Blake began to challenge conventional ideas of golfing technique. The result was controversial but it has revolutionised the game of all who have tried it. In athletics legs are the source of the athlete's power but it is their body which channels that power, Mindy Blake has created a technique that is based on athletic principles and which will dramatically improve the swing of a golfer of any standard. The line drawings make this book the ideal guide for anyone who wants to know how to improve their swing.

When the author discusses hands, he covers everything from the waggle--those tiny adjustments that help fine-tune the "sweet spot"--through hand pivot and rotation, foot position, shoulder alignment, establishing target lines and the legendary golfer Paul Runyan's chipping technique. The lessons here are complicated--there are no gimmies--but they're also winningly commonsensical. A vital book that fills a gap in the golf instruction literature.

With delicate language and wisdom, Madeleine Thien explores the longing of families pulled apart by conflicts between generations, cultures, and values. Each of these stories captures a deeply personal world in which characters struggle to reconcile family loyalty with individual desires. In "House," a 10-year-old girl longs for the alcoholic mother who left the house one day never to return. In "Dispatch," a woman tries to hold her marriage together even after finding proof that her husband is in love with someone else. In "A Map of the City," a young woman's troubled relationship with her father overshadows the course she takes in her adult life. Thien's fresh perspective and spare, haunting prose have already won her prizes and the praise of established masters. "Simple Recipes" is the beginning of a luminous writing career.
