This one-of-a-kind book respectfully compares the beliefs of over 20 religions in 7 basic doctrinal areas (like “The Nature of God” and “The Origin and Nature of Man”). It answers many of the questions that echo in the hearts of all who seek truth and spirituality, such as: Are all religions different paths to the same God? Are all names given to God equally legitimate? Is Ultimate Reality a personal God or an impersonal cosmic energy? What does it mean to be “one with God”? Is truth subjective or objective? Do human beings have one earthly existence or many reincarnations? Is the universe a creation of God or an emanation of God? Is there a final climactic end to the universe or endless cycles of creation? In Search of the True Light also chronicles Mike Shreve's personal spiritual journey from Eastern religions to Christianity. He was a teacher of yoga and meditation at four universities and ran a yoga ashram, until a dramatic encounter with God caused him to embrace a Biblical worldview. The comparison of these two belief systems makes for a very intriguing study. The unique method of categorization makes it perfect for classroom use and attractive as a reference source. An excellent addition to any library or school curriculum.

Memoirs of an Indian immigrant in United States of America.

When *The Accidental Prime Minister* was published in 2014, it created a storm and became the publishing sensation of the year. The Prime Minister's Office called the book a work of 'fiction', the press hailed it as a revelatory account of Prime Minister Manmohan Singh's first term in UPA. Written by Singh's media adviser and trusted aide, the book describes Singh's often troubled relations with his ministers, his cautious equation with Sonia Gandhi and how he handled the big crises from managing the Left to pushing through the nuclear deal. Insightful, acute and packed with political anecdotes, *The Accidental Prime Minister* is one of the great insider accounts of Indian political life.
