## AND PUBLIC POLICY

Principles of  
Microeconomics is one  
of the two principles  
courses in the discipline  
of economics.

Microeconomics is the  
study of the behavior of  
individual decision  
makers in the economic  
system, particularly  
households and business  
firms. It contrasts with  
macroeconomics, which

Download Free

Econ 101

is the study of the  
behavior of the  
economic system as a  
whole.
