China has experienced a tremendous turn-around over the past three decades from the ethos of sacrificing life to the emergent appeal for valuing life. This book takes an interdisciplinary look at China during these decades of transformation through the defining theme of governance of life. With an emphasis on how to achieve an adequate life, the contributors integrate a whole range of life-related domains including: the death of Sun Zhigang, the peril caused by rising tobacco consumption, the emerging suicide intervention, the turning points in the fight against AIDS, the intensely evolving birth policy, the emerging biological citizenship, and so on. In doing so, they explore how biological life has been governed differently to enhance the wellbeing of the population instead of promoting ideological goals. This change, dubbed "the deepening in governmentality," is one of the most important driving forces for China's rise, and will have huge bearings on how the Chinese will achieve an adequate life in the 21st century. This book presents works by a number of internationally known scholars and will be of interest to students and scholars of anthropology, sociology, political science, history, Chinese philosophy, law, and public health.

This workbook is to be used in conjunction with the textbook with the same name. This series follows the Five "C" Principles (Communication, Culture, Comparison, Connection and Community), and topics mirror students' real life experiences and hold their interest. In order to teach students practical communication skills, the books promote active teaching and learning methods and the creation of a joyful learning atmosphere.

Created for Chinese learners of middle school age, this series is geared toward beginners. Each lesson includes daily life conversations, vocabulary, sentence building exercises, listening and speaking practices, group activities, character introduction, and experiencing China with photos and conversations, all illustrated with colorful images and photos.

How have the Chinese fared in America? What motivated them to come here in the nineteenth century? How were they received by native Americans? These are some of the questions that Henry Tsai deals with in this important new book. He treats the nineteenth-century immigration experience, the development of early Chinese communities, American exclusion and the difficulties of living in the shadow of exclusion, and the Chinese community in the post-World War II era and today. Also covered are Chinese women in contemporary American society, the problems with children and youth in a multiracial society, and international issues such as the relationships between the U.S., China, and Taiwan, and the implications of these issues for the Chinese in America. The work provides a solid statistical analysis in a way that will be accessible to students and scholars as well as general readers.

Chaoyue: Advancing in Chinese covers the five Cs—communication, cultures, comparisons, connections,

and communities—and follows three communicative modes in lesson design: interpersonal, interpretive, and presentational. The authors arrange their lessons around four topics intrinsically interesting to students: the self, schooling, social customs, and the global village, fostering a full appreciation of Chinese culture. Each lesson contains warm-up activities, mini-dialogues, authentic readings, conversational relays, a cultural unit, examples of sentence patterns, and a vocabulary list. Two review lessons are geared specifically toward synthesizing and reinforcing the language and culture skills taught throughout the book, and footnote glossaries assist in reading comprehension. Written by experienced Chinese language instructors, Chaoyue helps students reach the preadvanced proficiency level within two semesters, or approximately 150 to 180 hours of course time. The preadvanced stage is comparable to a fourth-semester college Chinese course, or 250 hours of instruction. Unlike other language texts, Chaoyue is printed in both simplified and traditional Chinese characters, as well as the phonetic systems used in China ( pinyin) and Taiwan ( zhuyin fuhao). It also includes a CD-ROM with additional assignments and review as well as an online teacher manual. Lesson sections include:

- Warm-up activities that articulate the lesson's theme and activate students' prior knowledge
- Short readings in the form of letters, e-mails, reports, dialogues, stories, and interviews
- Dialogue practice with key vocabulary and sentence patterns
- Interactive activities such as surveys, debates, and small group discussions
- Conversational relays that ask pairs to complete minialogues
- Authentic readings in the form of advertisements, Web sites, maps, and signs, with multiple-choice review questions
- Common expressions that relate to the lesson theme

This is the story of three generations of women in a Chinese family and mirrors the tumultuous history of twentieth century China. Jung Chang's grandmother was born into the feudal China of 1909. Her feet

were bound and at the age of 15 she was given to a warlord general as a concubine. Her daughter grew up in occupied Manchuria and became active in the underground Nationalist movement. After many epic exploits, she and her guerilla lover became senior Communist officials. After a privileged childhood, Jung Chang became a Red Guard, but faced with the destructiveness of the Cultural Revolution, began to question Mao - a step which was to have momentous consequences for her and her family.
