The Nordic countries have long been seen as pioneers in promoting gender equality. The book brings together scholars from the global South and post-socialist economies to reflect on Nordic approaches to gender equality. The contributors to the book seek to explore from a comparative perspective the vision, values, policies, mechanisms, coalitions of interests and political processes that help to explain Nordic achievements on gender equality.

Course Description: This is an introductory course in the developing field of studies on communism, women and gender, in which we will explore historical, theoretical and global perspectives on the topic. We will discuss the complex question of what communism was (or is), emphasizing the need to distinguish between communism as an ideology, a political movement, or a regime, and, regardless, the need to carefully historicize and contextualize the phenomena in question.

A Global Perspective: Gender and Sport | Teaching Resources
Competence in gender perspectives is necessary for the implementation of gender equality strategies - mainstreaming and specific action. The gender perspective looks at the impact of gender on people's opportunities, social roles and interactions. Policies, programs and legislation can reinforce gender stereotypes, systemic discrimination and unequal opportunities for women and men.
