Recognizing the characteristics of children with learning disabilities and deciding how to help them is a problem faced by schools all over the world. Although some disorders are fairly easily recognizable (e.g., mental retardation) or very specific to single components of performance and quite rare

(e.g., developmental dyscalculia), schools must consider much larger populations of children with learning difficulties who cannot always be readily classified. These children present high-level learning difficulties that affect their performance on a variety of school tasks, but the underlying problem is often their difficulty in understanding written text. In many instances, despite good intellectual abilities and a superficial ability to cope with written texts and to use language appropriately, some children do not seem to grasp the most important elements, or cannot find the pieces of information they are looking for. Sometimes these difficulties are not immediately detected by the teacher in the early school years. They may be hidden because the most obvious early indicators of reading progress in the teacher's eyes do

However, as years go by and texts get more complex, comprehension difficulties will become increasingly apparent and increasingly detrimental to effective school learning. In turn, studying, assimilating new information, and many other situations requiring text comprehension -- from problem solving to reasoning with linguistic contents -- could be affected. Problems with decoding, dyslexia, and language disorders have attracted more interest from researchers than have specific comprehension problems and have occupied more room in specialized journals. Enidina Current and Mary Morrow live on neighboring farms in the flat, hard country of the upper Midwest during the early 1900s. This hardscrabble life comes easily to some, like Eddie, who has never wanted more than the land she works and the animals she raises on it with her husband, Frank. But for the deeply religious Mary, farming is an awkward living and at odds with her more cosmopolitan inclinations. Still, Mary creates a clean and orderly home life for her stormy husband, Jack, and her sons, while she adapts to the isolation of a rural town through the inspiration of a local preacher. She is the first to befriend Eddie in a relationship

But as the Great Depression threatens, the delicate balance of their reliance on one another tips, pitting neighbor against neighbor, exposing the dark secrets they hide from one another, and triggering a series of disquieting events that threaten to unravel not only their friendship but their families as well. In this luminous and unforgettable debut, Michelle Hoover explores the polarization of the human soul in times of hardship and the instinctual drive for self-preservation by whatever means necessary. *The Quickening* stands as a novel of lyrical precision and historical consequence, reflecting the resilience and sacrifices required even now in our modern troubled
