Text and contemporary photographs chronicle the life of immigrant children at home, school, work, and play during the late 1800's and early 1900's.

From Vice President Kamala Harris comes a picture book with an empowering message: Superheroes are all around us--and if we try, we can all be heroes too. Now a #1 New York Times bestseller! Before Kamala Harris was elected to the vice presidency, she was a little girl who loved superheroes. And when she looked around, she was amazed to find them everywhere! In her family, among her friends, even down the street--there were superheroes wherever she looked. And those superheroes showed her that all you need to do to be a superhero is to be the best that you can be. In this empowering and joyful picture book that speaks directly to kids, Kamala Harris takes readers through her life and shows them that the power to make the world a better place is inside all of us. And with fun and engaging art by Mechal Renee Roe, as well as a guide to being a superhero at the end, this book is sure to have kids taking up the superhero mantle (cape and mask optional). Praise for Superheroes Are Everywhere: "This [book] offers a solid message: a superhero could be anyone, including you." --Booklist

Grounded in both theory and practice, with implications for both, this book is about children’s perspectives on the borders that society erects, and their actual, symbolic, ideational and metaphorical movement across those borders. Based on extensive ethnographic data on children of immigrants (mostly from Mexico, Central America and the Philippines) as they interact with undergraduate students from diverse linguistic, cultural and racial/ethnic backgrounds in the context of an urban play-based after-school program, it probes how children navigate a multilingual space that involves playing with language and literacy in a variety of forms. Immigrant Children in Transcultural Spaces speaks to critical social issues and debates about education, immigration, multilingualism and multiculturalism in an historical moment in which borders are being built up, torn down, debated and recreated, in both real and symbolic terms; raises questions about the values that drive educational practice and decision-making; and suggests alternatives to the status quo. At its heart, it is a book about how love can serve as a driving force to connect people with each other across all kinds of borders, and to motivate children to engage powerfully with learning and life.

The moving stories of children in migration—in their own words. "In Spanish and in English, a devastating first-person account of children’s experiences in detention at the southern U.S. border.... A powerful, critical document only made more heartbreaking in picture-book form." —Kirkus Reviews starred review Every day, children in migration are detained at the US-Mexico border. They are scared, alone, and their lives are in limbo. Hear My Voice/Escucha mi voz shares the stories of 61 these children, from Honduras, Guatemala, El Salvador, Ecuador, and Mexico, ranging in age from five to seventeen—in their own words from actual sworn testimonies. Befitting the

spirit of the project, the book is in English on one side; then flip it over, and there's a complete Spanish version. Illustrated by 17 Latinx artists, including Caldecott Medalist and multiple Pura Belpré Illustrator Award-winning Yuyi Morales and Pura Belpré Illustrator Award-winning Raquel the Third. Includes information, questions, and action points. Buying this book benefits Project Amplify, an organization that supports children in migration.

Describes the flood of immigration into the United States in the late nineteenth and early twentieth centuries, focusing on the experiences of the youngest immigrants, both on their journeys and in their new country.

The Immigrant Child is an entertaining, exciting, thought-provoking children's book. It chronicles a child's experience moving from a developing country to a developed one with her parents. The initial excitement dwindled when she was faced with many cultural differences. A highlight of the book is the questions at the end that target the different levels of comprehension.

Complicating the common view that immigrant incorporation is a top-down process, determined largely by parents, Vikki Katz explores how children actively broker connections that enable their families to become woven into the fabric of American life. Children's immersion in the U.S. school system and contact with mainstream popular culture enables them more quickly to become fluent in English and familiar with the conventions of everyday life in the United States. These skills become an important factor in how families interact with their local environments. Kids in the Middle explores children's contributions to the family strategies that improve communication between their parents and U.S. schools, healthcare facilities, and social services, from the perspectives of children, parents, and the English-speaking service providers that interact with these families via children's assistance. Katz also considers how children's brokering affects their developmental trajectories. While their help is critical to addressing short-term family needs, children's responsibilities can constrain their access to educational resources and have consequences for their long-term goals. Kids in the Middle explores the complicated interweaving of family responsibility and individual attainment in these immigrant families. Through a unique interdisciplinary approach that combines elements of sociology and communication approaches, Katz investigates not only how immigrant children connect their families with local institutional networks, but also how they engage different media forms to bridge gaps between their homes and mainstream American culture. Drawing from extensive firsthand research, Katz takes us inside an urban community in Southern California and the experiences of a specific community of Latino immigrant families there. In addition to documenting the often-overlooked contributions that children of immigrants make to their families' community encounters, the book provides a critical set of recommendations for how service providers and local institutions might better assist these children in fulfilling their family responsibilities. The story told in Kids in the Middle reveals an essential part of the immigrant experience that transcends both geographic and ethnic boundaries.

Some walked across deserts and mountains to get here. Others flew in on planes. One arrived after escaping in a suitcase. And some won't say how they got here. These are "the new kids": new to America and all the routines and rituals of an American high school, from lonely first days to prom. They attend the International High School at Prospect Heights in Brooklyn, which is like most high schools in some ways—its halls are filled with students gossiping, joking, flirting, and pushing the limits of the school's dress code—but all of the students are recent immigrants learning English. Together, they come from more than forty-five countries and speak more than twenty-eight languages. A singular work of narrative journalism, *The New Kids* chronicles a year in the life of a remarkable group of these teenage newcomers—a multicultural mosaic that embodies what is truly amazing about America. Hauser's unforgettable portraits include Jessica, kicked out of her father's home just days after arriving from China; Ngawang, who spent twenty-four hours folded up in a small suitcase to escape from Tibet; Mohamed, a diamond miner's son from Sierra Leone whose arrival in New York City is shrouded in mystery; Yasmeen, a recently orphaned Yemeni girl who is torn between pursuing college and marrying so that she can take care of her younger siblings; and Chit Su, a Burmese refugee who is the only person to speak her language in the entire school. The students in this modern-day Babel deal with enormous obstacles: traumas and wars in their countries of origin that haunt them, and pressures from their cultures to marry or to drop out and go to work. They aren't just jostling for their places in the high school pecking order—they are carving out new lives for themselves in America. *The New Kids* is immersion reporting at its most compelling as Brooke Hauser takes us deep inside the dramas of five International High School students who are at once ordinary and extraordinary in their separate paths to the American Dream. Readers will be rooting for these kids long after reading the stories of where they came from, how they got here, and where they are going next.
