Lifespan development explores how we change and grow from conception to death. This field of psychology is studied by developmental psychologists. They view development as a lifelong process that can be studied scientifically across three developmental domains: physical, cognitive development, and psychosocial.

What is Lifespan Development? | Introduction to Psychology

I very much enjoyed reading Chapters 17 (Physical Development and Aging) and 18 (Cognitive Development and Aging) of the 13th edition of Life-Span Development. The material is up-to-date and the different connections that are integrated within the chapters render the material quite accessible to today's students." –Arthur Kramer University of Illinois at Urbana-Champaign
