The Georgia Low Income Home Energy Assistance Program (LIHEAP), is a Federally-funded program that helps low-income households with their home energy bills. This assistance can reduce the risk of health and safety problems such as illness, fire, or disconnection.

Millions of Americans are just one paycheck away from becoming unemployment statistics. If it happens to you, you need to know what to do next. This book spells out where to get help after you lose your job, your home, or both. It specifically shows where to apply for government aid programs that offer food, heating bills assistance, subsidized phone service, subsidized housing, subsidized child care, welfare, unemployment insurance and other benefits. This book shows where to apply for food stamps (SNAP) and other food programs that put food on the table, where to apply for heating bills assistance (LIHEAP) and keep the heat turned on during the winter, where to apply for subsidized telephone service (Lifeline) and keep your phone turned on, where to apply for subsidized housing (Section 8) and keep a roof over your head, where to apply for unemployment insurance and keep some money coming in, and where to apply for welfare (TANF) and other benefit programs. Both the unemployed and the underemployed working poor are eligible to apply. Includes information about benefit programs, the income and assets guidelines used to determine eligibility for benefits and hundreds of agency contact phone numbers (many toll-free) and web sites. Use this book to find out what sorts of government aid programs are available, where to apply and how to keep going during the recession.

The strengths and abilities children develop from infancy through adolescence are crucial for their physical, emotional, and cognitive growth, which in turn help them to achieve success in school and to become responsible, economically self-sufficient, and healthy adults. Capable, responsible, and healthy adults are clearly the foundation of a well-functioning and

prosperous society, yet America's future is not as secure as it could be because millions of American children live in families with incomes below the poverty line. A wealth of evidence suggests that a lack of adequate economic resources for families with children compromises these children's ability to grow and achieve adult success, hurting them and the broader society. A Roadmap to Reducing Child Poverty reviews the research on linkages between child poverty and child well-being, and analyzes the poverty-reducing effects of major assistance programs directed at children and families. This report also provides policy and program recommendations for reducing the number of children living in poverty in the United States by half within 10 years.
