Private Games is the 3rd in the Private series by James Patterson, and I was pleasantly surprised by how much I enjoyed this one. I hadn't read one in a while as the last one didn't grab me at all. But in this one, the pace was electric, the twists stunning and the thrills definitely made my heart thump! Recommended.

James Patterson really screwed up here, both with the continuing storyline of the series and gross factual errors in this book. 1. Why kill off the Dan Carter character from the previous book ? That was totally unnecessary and irrelevant to the plot of Private Games. 2.

Having read the first two books in the Private series I was anticipating a good read with this most recent one, Private Games. I have made it through to Chapter 9 and am really struggling. I agree with a previous reviewer that states they can tell that James Patterson did not write this one. The narrative style is completely different.
