Synonyms and antonyms are an important part of 11+ CEM tests. Possibly the hardest questions asked are those where you not only must know the word but also how to spell it! These are the 'missing letters' questions where you must complete the synonym or antonym by filling in the missing letters. This book provides an opportunity to practise this challenging part of the CEM test.

The ISEE has a Verbal Reasoning section that is composed of two different kinds of questions: Synonyms and Sentence Completions. Both kinds of questions test your vocabulary and reasoning ability. Synonym questions focus on word recognition, since the correct answer choices are those that have the same meaning, or are closest in meaning, to the word in the question. Synonyms also test your ability to reason, because you must choose the word that is most nearly the same in meaning to the word in the question from among four answer choices. Sentence completion questions measure your ability to understand words and their function. Correct answers are based on clues that appear in the context of the sentence. In the Upper Level forms of the ISEE, the sentence completion answer choices are words or pairs of words that logically complete the meaning of the sentence as a whole. You have 17.5 minutes to answer 35 questions, and under time pressure, it is all too common to see students fumbling about with their sentences & their vocabulary, losing precious time. What is needed is to be able to look at a problem, and have a A-ha, I have seen it before, Moment! And that is what this book will help you do. This book will help you learn strategies to tackle the Verbal Reasoning section. You will become well conversant with the steps to get to the correct answer, and you won't fumble even if you are not sure.
