The Paladin Prophecy is a full on action movie where "Bourne Identity" meets Harry Potter. I was immediately drawn into the action where Will West hits the ground running literally from mysterious black sedans. Will has always lived by a book of rules his Dad made for him. Will never preformed up to his abilities and always stayed below the radar.

The Paladin tilted his head to the side, disdainful. "Your head. On a stick." Will swallowed. "You're going to have to come and get it, then." "I don't think so." "I know who you are," said Will. "You don't even know who you are," said the Paladin. Will stared at the screen and listened hard.

### The Paladin Prophecy Ser.: The Paladin Prophecy by Mark ...

The Paladin Prophecy is an exciting, engaging YA fantasy and the first in what I have a feeling, will be an awesome trilogy. For obvious reasons I would recommend to fans of Harry Potter, but it is worth noting that the two are completely different.

A fifteen-year-old boy who has spent his entire life trying to avoid attention finds himself in the middle of a millenia-old struggle between titanic forces when he is simultaneously recruited by an exclusive prep school and followed by sinister agents.

Readers of I Am Number Four, The Maze Runner, and Legend will love this sophisticated adventure series by the cocreator of the groundbreaking television show Twin Peaks, with its unique combination of mystery, heart-pounding action, and the supernatural. After exposing the sinister underground society of students known as the Knights of Charlemagne, Will West stays at the Center over the summer to explore his newly developing physical and mental abilities. Meanwhile, his roommates investigate the Knights' shadowy purpose and discover unsettling information about their own backgrounds. Will and his friends must quickly figure out what's going on and separate friend from foe as they prepare for the coming fight.

-Will West and his friends enter the alternate universe of the Never in order to rescue Will's friend and mentor Dave from the dangerous and deadly creatures from beyond---

After exposing the sinister underground society of students known as the Knights of Charlemagne, Will West stays at the Centre over the summer to explore his newly developing physical and mental abilities. Meanwhile, his roommates investigate the Knights' shadowy purpose and discover unsettling information about their own backgrounds. Will and his friends must quickly figure out what's going on and separate friend from foe as they prepare for the coming fight.

The ancient holy texts are missing. The death of the world approaches. Six extraordinary men have shared one vision of a black tower and a river of blood. Somewhere in the desert wastelands of America, the ultimate battle will be waged. The greatest experiment in evil since the beginning of time is under way, with all humanity its designated sacrifice. The future is in the hands of the Six.

FRIGHTENED MONSTERS. STOLEN TIME. AND ONE SERIOUSLY UNDERESTIMATED DAMSEL. Katie ran from the magical world years ago. She never planned on being dragged back in by a prophesying clamshell. The seers believe she alone can prevent an apocalypse of ruined time and broken worlds. Bran the Crow King believes she can save him from his cannibalistic grandfather. Katie believes they're all nuts. One thing is for certain: she's not waiting around for help. Operation Katie Saves her Own Damn Self is officially on.

Boston, Tuesday, October 21, 1975. The Red Sox and the Cincinnati Reds have endured an excruciating three-day rain delay. Tonight, at last, they will play Game Six of the World Series. Leading three games to two, Cincinnati hopes to win it all; Boston is desperate to stay alive. But for all the anticipation, nobody could have predicted what a classic it would turn out to be: an extra-innings thriller, created by one of the Big Red Machine's patented comebacks and the Red Sox's improbable late-inning rally; clutch hitting, heart-stopping defensive plays, and more twists and turns than a Grand Prix circuit, climaxed by one of the most famous home runs in baseball history that ended it in the twelfth. Here are all the inside stories of some of that era's biggest names in sports: Johnny Bench, Luis Tiant, Sparky Anderson, Pete Rose, Carl Yastrzemski--eight Hall of Famers in all--as well as sportscasters and network execs, cameramen, umpires, groundskeepers, politicians, and fans who gathered in Fenway that extraordinary night. Game Six is an unprecedented behind-the-scenes look at what is considered by many to be the greatest baseball game ever played--remarkable also because it was about so much more than just balls and strikes. This World Series marked the end of an era; baseball's reserve clause was about to be struck down, giving way to the birth of free agency, a watershed moment that changed American sports forever. In bestselling author Mark Frost's talented hands, the historical significance of Game Six becomes every bit as engrossing as its compelling human drama.

The world's safest town might actually be a deadly kind of dangerous. And Nica Ashley is about to learn the hard way. Nica Ashley is accustomed to traveling the globe with her journalist mother, so when she gets sent to live in a small town with the father she barely knows, she's in for a bit of a culture shock. Barrington prides itself on being a sleepy, family community with the lowest crime rates in the state of Colorado. There's even a private security force run by Barrington Technology (BarTech) and a nightly curfew for all residents. On Nica's first day at school, she meets Jackson Winters and finds out he went from school superstar to living ghost after his girlfriend disappeared a few months ago. When Nica follows him out after curfew one night, they both witness a mysterious green flash—and the next morning the power has gone out and all the birds are dead. But secrets are well and alive, and as Nica and some of her friends discover they now have abilities best described as “super,” they also realize that Barrington might not be so safe. And that BarTech is looking for them.

Dark Brotherhood As the city of London slumbers, there are those in its midst who conspire to rule the world through the darkest and most nefarious means. These seven, seated in positions of extraordinary power and influence, marshal forces from the far side to aid them in their fiendish endeavor. Force of One In the aftermath of a bloody séance and a terrifying supernatural contact, a courageous young doctor finds himself drawn into a malevolent conspiracy beyond human comprehension. All or Nothing The future is not safe, as a thousand-year reign of pure evil is about to begin, unless a small group of stalwart champions can unravel the unspeakable mysteries behind a crime far more terrible than murder.

Bestselling author Mark Frost makes a triumphant return to fiction with this riveting World War II thriller, based on a shocking real-life German operation run by "the most dangerous man in Europe." Fall 1944. Germany is losing, and the Americans are starting to hope they'll be home for Christmas. Lieutenant Colonel Otto Skorzeny, "Hitler's Commando," famed for his daring rescue of the imprisoned Mussolini, has just received orders for Operation Greif: He is to assemble a new brigade of 2,000 men, all of whom speak English, and send them behind Allied lines disguised as GIs, where they will wreak havoc in advance of a savage new offensive. And from those men, Skorzeny is to select a smaller group, made up of the twenty most highly skilled commandos fluent in American culture, to attempt an even more sinister mission--the second objective--which, if completed, not only would change the course of the war, but would change the course of history. Filled with real characters and details only recently released by the United States military, *The Second Objective* is historical fiction at its most pulse-pounding, its most unpredictable, and its most compulsively readable.
