The Power Of Limits Proportional

The essential concept in this book is the 'power of limits.' Doczi shows that this limiting factor is the golden section. And he does it using almost no math! The golden section has the powerful quality that division or expansion by this proportion always leads to harmonious growth.

The Power of Limits: Proportional Harmonies in Nature, Art ...

The golden section has the powerful quality that division or expansion by this proportion always leads to harmonious growth. No matter how small or large is the division, there is never anything "left over" to create disharmony. This limiting factor is of transcendental power, thus

"The Power of Limits."

The Power of Limits: Proportional Harmonies in Nature, Art ...

The Power of Limits contains everything we need to know about the hidden formula that governs all of our physical attributes on earth. As a designer and artist, this is a must read book that explains the most fundamental human psychology on the subject of beauty and whatever we may may find comfortable and familiar.

The Power of Limits: Proportional Harmonies in Nature, Art ...

The joining of unity and diversity in the discipline of proportional limitations creates forms that are beautiful to us because they embody the principles of the cosmic order of which we are a part; conversely, the limitlessness of that order is revealed by the strictness of its forms.
