Part of the addiction recovery process is the healing of the body and the mind. Once the individual quits alcohol or drugs and learns how to maintain that sobriety, the body and mind will begin to repair itself.

Addiction Recovery | Recovery.org.uk

Even people with severe and chronic substance use disorders can, with help, overcome their illness and regain health and social function. This is called remission. Being in recovery is when those positive changes and values become part of a voluntarily adopted lifestyle. While many people in recovery believe that abstinence from all substance use is a cardinal feature of a recovery lifestyle, others report that handling negative feelings without using substances and living a contributive ...
