The objectives of the U.S. nuclear strategy are two-fold, he said. "First and foremost is to deter war, both conventional and nuclear; second, should nuclear deterrence fail, [is] to deter further...

DOD Official Outlines U.S. Nuclear Deterrence Strategy > U ...

In fashioning America's nuclear strategy vis-à-vis nuclear and not-yet-nuclear adversaries, [iii] US military planners must include a mechanism to determine whether a pertinent adversary (e.g., North Korea or Iran) will more likely be rational or irrational. Operationally, this means ascertaining whether the identifiably relevant foe will value its collective survival (either as a state, or as an organized terror group) more highly than any other preference or combination of preferences.

Nuclear strategy - Wikipedia

Adoption of No First Use. The United States should adopt a no-first-use (NFU) nuclear policy declaring that the sole purpose of U.S. nuclear weapons is to deter/and, if necessary, respond/to the use of nuclear weapons against the United States and its allies and partners. Current U.S. Nuclear Policy and the First-Use Option

The Future of U.S. Nuclear Policy: The Case for No First ...

The United States was the first country to manufacture nuclear weapons and is the only country to have used them in combat, with the separate bombings of Hiroshima and Nagasaki in World War II. Before and during the Cold War, it conducted over one thousand nuclear tests and tested many long-range nuclear weapons delivery systems.

Nuclear weapons of the United States - Wikipedia

U.S. Nuclear Policy at an Inflection Point by Eric Gomez Eric Gomez argues that U.S. nuclear strategy is due for a reconsideration. As the U.S. stockpile of nuclear weapons undergoes modernization/a process that will take more than a decade/the time is right for rethinking what we should be doing with them.

The United States Must Avoid a Nuclear Arms Race with ...

By abandoning the deal, the United States has jeopardized the entire multinational deal and more importantly the stability of the nuclear community by withdrawing from the only deal that stood in the way of Iran obtaining nuclear weapons. Since the United States' withdrawal from the deal, Iran is preparing to increase its uranium enrichment capacity significantly above what is allowed by the 2015 deal that used to be in place. The little justification the United States provided for pulling ...

United States Nuclear Strategy: Deterrence, Escalation and ...

nuclear strategy, a policy for the use of nuclear weapons . The first atomic bombs were used in the context of the Allies' World War II policy of strategic bombing. Early in the cold war , U.S. policy was for massive retaliation with Strategic Air Command bombers in the event of war with the USSR. In 1949, after the Soviets exploded their first atomic device, the United States elaborated other policies, but these did not affect the ever-increasing numbers, types, and explosive force of ...

nuclear strategy | Infoplease

The guidance narrows U.S. nuclear strategy to focus on only those objectives and missions that are necessary for deterrence in the 21stcentury. In so doing, the guidance takes further steps toward reducing the role of nuclear weapons in our security strategy.
