one particular and important aspect. Readers will understand what the legislative branch is and the role it plays within the state and federal government. They will also be introduced to some of the most important and interesting people who have worked in this branch of government, including both past and present members of the U.S. Congress. Full-color photos and diagrams help to illustrate what kind of decisions are made in Congress and how those decisions affect the everyday lives of Americans.

In *Building Academic Vocabulary: Teacher s Manual*, Robert J. Marzano and Debra J. Pickering give teachers a practical way to help students master academic vocabulary. Research has shown that when teachers, schools, and districts take a systematic approach to helping students identify and master essential vocabulary and concepts of a given subject area, student comprehension and achievement rises. In the manual, readers will find the following tools: * A method to help teachers, schools, and districts determine which academic vocabulary terms are most essential for their needs * A six-step process for direct instruction in subject area vocabulary * A how-to to help students use the *Building Academic Vocabulary: Student Notebook*. The six-step method encourages students to learn critical academic vocabulary by connecting these terms to prior knowledge using linguistic and non-linguistic means that further encourage the refinement and deepening of their understanding. * Suggestions for tailoring academic vocabulary procedures for English Language Learners. * Samples and blackline masters for a variety of review activities and games that reinforce and refine student understanding of the academic terms and concepts they learn. The book also includes a list of 7, 923 vocabulary terms culled from the national standards documents and other publications, organized into 11 subject areas and 4 grade-level categories. *Building Academic Vocabulary: Teacher s Manual* puts into practice the research and ideas outlined in Marzano s previous book *Building Background Knowledge for Academic Achievement*.

Using the teacher s manual and vocabulary notebooks, educators can guide students in using tools and activities that will help them deepen their own understanding of critical academic vocabulary--the building blocks for achievement in each discipline.

Uses mice to introduce the reader to the White House and the various roles of the President.

Congress is in session and the Squeaker of the House and the Senate Mouse-jority leader have a big job to do: they have to pass a law designating a national cheese for the United Mice of America. In House Mouse, Senate Mouse, bestselling and award-winning duo Peter and Cheryl Barnes give kids an entertaining and educational look at the legislative process while teaching them the values of hard work and compromise. From drawing up a bill and committee discussions to voting and signing a bill, House Mouse, Senate Mouse teaches children about the Senate, House of Representatives, and the Capitol building. House Mouse, Senate Mouse also features “The Tail End: Resources for Parents and Teachers” at the end of the book to help moms, dads, and educators teach their little mice even more about our legislative branch. Fun and informative, House Mouse, Senate Mouse is a great book for any child who might one day aspire to be a Congressmouse and work in our nation’s capital.

Designed especially for persons seeking to become citizens of the U.S. Can be used to help the reader prepare for the naturalization exams. The main focus is on understanding the heritage and development of the U.S. and its system of government. Contains learning objectives, a glossary and review questions. Illustrated.

When it comes to the vagaries of language in American politics, its uses and abuses, its absurdities and ever-shifting nuances, its power to confound, obscure, and occasionally to inspire, William Safire is the language maven we most readily turn to for clarity, guidance, and penetrating, sometimes lacerating, wit. Safire's Political Dictionary is a stem-to-stern updating and expansion of the Language of Politics, which was first published in 1968 and last revised in 1993, long before such terms as Hanging Chads, 9/11 and the War on Terror became part of our everyday vocabulary. Nearly every entry in that renowned work has been revised and updated and scores of completely new entries have been added to produce an indispensable guide to the political language being used and abused in America today. Safire's definitions--discursive, historically aware, and often anecdotal--bring a savvy perspective to our colorful political lingo. Indeed, a Safire definition often reads like a mini-essay in political history, and readers will come away not only with a fuller understanding of particular words but also a richer knowledge of how politics works, and fails to work, in America. From Axis of Evil, Blame Game, Bridge to Nowhere, Triangulation, and Compassionate Conservatism to Islamofascism, Netroots, Earmark, Wingnuts and Moonbats, Slam Dunk, Doughnut Hole, and many others, this language maven explains the origin of each term, how and by whom and for what purposes it has been used or twisted, as well as its perceived and real significance. For anyone who wants to cut through the verbal haze that surrounds so much of American political discourse, Safire's Political Dictionary offers a work of scholarship, wit, insiderhood and resolute bipartisanship.

Uses a tale about mice disagreeing over laws requiring that all mice eat the same cheese every day of the week to introduce readers to the workings of the Supreme Court.

An essential handbook for international lawyers and students Focusing on vocabulary, *Essential Legal English in Context* introduces the US legal system and its terminology. Designed especially for foreign-trained lawyers and students whose first language is not English, the book is a must-read for those who want to expand their US legal vocabulary and basic understanding of US government. Ross uses a unique approach by selecting legal terms that arise solely within the context of the levels and branches of US government, including terminology related to current political issues such as partisanship. Inspired by her students' questions over her years of teaching, she includes a vast collection of legal vocabulary, concepts, idioms, and phrasal verbs and unpacks concepts embedded in US case law, such as how the US constitutional separation of powers may affect a court's interpretation of the law. The handbook differentiates basic terms in civil and criminal cases and compares terms that may seem similar because of close spellings but in fact have different meanings. For instance, what is the distinction between "taking the stand" and "taking a stand?" What is the difference between "treaties" and "treatises"? Featuring illustrations and hands-on exercises, *Essential Legal English in Context* is a valuable self-study resource for those who want to improve their legal English terminology before entering a US law school, studying US law or government, or working as a seconded attorney to a US law firm. Instructors can use the handbook in an introductory US legal English course.
