Write a list of keywords relating to your web app. If it's an 'OKR tool', use the tools to search 'OKR tool', 'OKR app', and 'objectives and key results software'. If the SEO tool indicates there are lots of people searching for your keyword terms, this is a small indicator you have a target market.

## How to build a web app: A beginner's guide (2020)

These tests are especially easy to write, and valuable, for APIs, which are increasingly important in modern web applications. Traditional and SPA behaviors supported. Traditional web applications have involved little client-side behavior, but instead have relied on the server for all navigation, queries, and updates the app might need to make.

## Characteristics of modern web applications | Microsoft Docs

Modern apps are built using services that enable you to focus on writing code while automating infrastructure maintenance tasks. You will build a sample website called Mythical Mysfits that enables visitors to adopt a fantasy creature (mysfit) as pet. You can see a working sample of this website at: [www.mythicalmysfits.com](http://www.mythicalmysfits.com)
